

MDV Electric Spreader

IT'S WHAT WE KNOW.

MDV

www.swensonproducts.com

Efficient and effective performance featuring independent electric drives.

Our MDV electric spreaders give you the versatility and capacity you need with the driving power of two independent electric motors for the spinner and auger. The auger material delivery system improves material flow, while the electric motors provide quiet, fuel efficient operation. By utilizing the vehicles existing electrical system, no additional power requirements are needed. With a wide variety of options, you can find a custom solution to meet your exact needs.

- ▶ VEHICLE: 16,000 GVW+
- ▶ APPLICATIONS:
PARKING LOTS, ROADS, HIGHWAYS

SWENSON
IT'S WHAT WE KNOW.

MDV Electric Spreader

Featuring low maintenance auger material delivery system.

Features

Auger and spinner are driven independently by two electric motors.

Swing up spinner makes clean-up, material discharge and off-season storage convenient and easy.

All auger and spinner bearing maintenance can be performed from the back of the unit.

Dual speed controller with blast feature lets you independently adjust the conveyor and the spinner providing integrated variable speed control.

Electric MDV Specifications

Highlights

- ▶ Designed for 16,000+ GVW Trucks
- ▶ Uses electrical power from vehicle; no hydraulics required
- ▶ Features low maintenance auger material delivery system
- ▶ Uses 2 Industrial Grade electric variable speed motors independently drive the auger and spinner disk (60 amp required)
- ▶ Dual Speed Controller installs in cab of vehicle to provide ultimate spreading
- ▶ Swing Up Spinner System allows for quick unloading of material
- ▶ Graduated flighting provides even material distribution from the hopper

Equipment

Size Specifications:	Available in 8' length; 44" tall; 70" wide
Capacity:	3.0 Cu. Yds.
Construction:	Corrosion Resistant Stainless Steel
Steel Gauges:	12 gauge stainless steel hopper
Spread Width:	4' to 40' spread pattern
Safety Features:	Fork pockets, EIS (Electric Inter Lock System)
Warranty Details:	1 year warranty
Options:	Side extensions, electric pre-wet system, 10" spill shield, vibrator kit, external baffles
